Contents

Volume 62 Number 1

AUTHORS		ARTICLES
H W Zhang, Y L Liu and Z Y Zhong	1	An improved microchip thin film transformer formed by vacuum evaporation and sputtering
G Raiteri and A Calcatelli	7	Thermal desorption from stainless steel samples coated with TiN and oxide layers
I A Faizrakhmanov, V V Bazarov, V A Zhikharev, A L Stepanov and I B Khaibullin	15	Influence of Xe^+-ion irradiation on the microstructure of diamond-like carbon films
A D Pogrebnjak, M Il'jashenko, O P Kul'ment'eva, V S Kshnjakin, A P Kobzev, Y N Tyurin and O Kolisnichenko	21	Structure and properties of Al_2O_3 and Al_2O_3+Cr_2O_3 coatings deposited to steel 3 (0.3 wt%C) substrate using pulsed detonation technology
B G Segda, M Jacquet and J P Besse	27	Elaboration, characterization and dielectric properties study of amorphous alumina thin films deposited by r.f. magnetron sputtering
G H Chandra, O Md Hussain, S Uthanna and B Srinivasulu Naidu	39	Characterization of $AgGa_{0.25}In_{0.75}Se_2$ thin films
E Paparazzo	47	XPS, AES and EELS studies of Al surfaces
S Bandyopadhyaya, S Roy, S Chaudhuri and A K Pal	61	$CuIn(S_xSe_{1-x})_2$ films prepared by graphite box annealing of In/Cu stacked elemental layers

Volume 62 Numbers 2–3

SPECIAL ISSUE

The Sixth International Conference on Electron Beam Technologies (EBT '2000)

4–7 June 2000, Varna, Bulgaria

AUTHORS		ARTICLES
	75	Preface
U Dilthey, A Goumeniouk, S Böhm and T Welters	77	Electron beam diagnostics: a new release of the diabeam system
U Dilthey, A Goumeniouk, O K Nazarenko and K S Akopjantz	87	Mathematical simulation of the influence of ion-compensation, self-magnetic field and scattering on an electron beam during welding

PII: S0042-207X(01)00367-0

V Engelko and G Mueller	**97**	Influence of particle fluxes from a target on the characteristics of intense electron beams
E Koleva, K Vutova, S Wojcicki and G Mladenov	**105**	Use of radial distributions of the beam current density for evaluation of beam emittance and brightness
G Mladenov and S Sabchevski	**113**	Potential distribution and space-charge neutralization in technological intense electron beams — an overview
T Idehara, S Mitsudo, S Sabchevski, M Glyavin and I Ogawa	**123**	Gyrotron FU series — current status of development and applications
S Sabchevski, T Idehara, M Glyavin, S Mitsudo, I Ogawa, K Ohashi and H Kobayashi	**133**	Design of a large orbit gyrotron with a permanent magnet system
J L Barreda, F Santamaría, X Azpiroz, A M Irisarri and J M Varona	**143**	Electron beam welded high thickness Ti6Al4V plates using filler metal of similar and different composition to the base plate
E Koleva	**151**	Statistical modelling and computer programs for optimisation of the electron beam welding of stainless steel
J Dupák, I Vlček and M Zobač	**159**	Electron gun for computer-controlled welding of small components
M Horácek and J Dupák	**165**	Temperature controlled cathode heating in electron beam welding
J Felba, K P Friedel, P Krull, I L Pobol and H Wohlfahrt	**171**	Electron beam activated brazing of cubic boron nitride to tungsten carbide cutting tools
R Cortenraad, S N Ermolov, V N Semenov, A W Denier van der Gon, V G Glebovsky, S I Bozhko, E D Stinov and H H Brongersma	**181**	Electron-beam growing and purification of W crystals
E Koleva, K Vutova and G Mladenov	**189**	The role of ingot–crucible thermal contact in mathematical modelling of the heat transfer during electron beam melting
V Vassileva, K Vutova and G Mladenov	**197**	An investigation of the influence of heat transfer on crystallisation processes during electron beam melting and casting of metals
J Morimoto, N Abe, F Kuriyama and M Tomie	**203**	Formation of a Cr_3C_2/Ni–Cr alloy layer by an electron beam cladding method and evaluation of the layer properties
V Engelko, B Yatsenko, G Mueller and H Bluhm	**211**	Pulsed electron beam facility (GESA) for surface treatment of materials
U Schwab	**217**	A new accelerator for electron beam curing
A S Ivanov, V P Ovchinnikov, M P Svinin, N G Tolstun and S L Bogart	**225**	4 MeV High-voltage accelerator with 500 kW electron beam for radiation sterilization
S Korenev	**233**	Electron beam curing of composites
S Korenev and J Kriebel	**237**	The surface modification of dielectrics by a CW electron beam
M F Reznitchenko	**241**	Gas-phase chemical reactions activated by an e-beam
P N Kuznetsov, N K Kuksanov and L I Kuznetsova	**247**	Effect of irradiation by an accelerated electron beam on the reactivity of brown coal for conversion into low molecular products
Yu I Golubenko, N K Kuksanov, S A Kuznetsov, P I Nemytov, R A Salimov, S N Fadeev and M E Veis	**251**	High power transistor frequency converter for supply of industrial transformer-type electron accelerators
P V Axamirsky, N K Kuksanov, A B Malinin, P I Nemytov and R A Salimov	**257**	4-Sided irradiation systems for electron treatment of cable and pipe-like products

I Raptis, N Glezos, E Valamontes, E Zervas and P Argitis	**263**	Electron beam lithography simulation for high resolution and high-density patterns
K Vutova and G Mladenov	**273**	Why light ions in future ion lithography?
I W Rangelow	**279**	Dry etching-based silicon micro-machining for MEMS
H Asahara, T Migita, T Tanaka and K Kawabata	**293**	Microstructure and electrical properties of CoN_X thin films deposited by unbalanced magnetron sputtering
K Vutova, G Mladenov, T Tanaka and K Kawabata	**297**	Photoelectron signal simulation from textured samples covered by a thin film
D Kaczmarek	**303**	Investigation of surface topography using a multidetector system in a SEM
Y M Gueorguiev, R Kögler, A Peeva, D Panknin, A Mücklich, R A Yankov and W Skorupa	**309**	Trans-projected-range effect in proximity gettering of impurities in silicon

Volume 62 Number 4

AUTHORS		ARTICLES
S Tizi, Z Benamara, M Chellali, A Talbi, B Gruzza, S Merle and C Robert	**315**	Effect of InSb buffer layer in MIS structures based on InP
B Kobbi, D Ouadjaout and N Kesri	**321**	Growth and characterization of In–Se films
W Guangfu and Z Huixing	**325**	Second anode action of the filtering duct in a magnetically filtered cathodic vacuum arc discharge
A Burmistrov, L Belyaev, P Ossipov, M Fomina and R Khannanov	**331**	Combined experimental and calculation study of conductance of Roots pump channels
J Sun, L Weng and Q Xue	**337**	Duplex treatment for surface improvement of 2024 Al
H S Metwally	**345**	Optical parameter studies of as-deposited and annealed $Ge_{30}Sb_{10}S_{60}$ thin films
S M El-Sayed and G A M Amin	**353**	Structure, optical absorption and electrical conductivity of amorphous AsSeGe thin films
S K Zheng, T M Wang, G Xiang and C Wang	**361**	Photocatalytic activity of nanostructured TiO_2 thin films prepared by dc magnetron sputtering method
G K Sahu, R V Tamhankar and K B Thakur	**367**	Measurement & simulation of backscattered electrons from a strip electron beam source
M Torkar, B Breskvar, M Tandler, Đ Mandrino and M Doberšek	**379**	EPMA and HRAES determination of complex inclusions in primary aluminium
